WORK EXPERIENCE

Pine Labs, Bangalore – Software Development Engineer (SDE) Intern Sept 2024 - July 2025

Data Science Intern (First 4 months): Worked on categorization and annotation tasks using Python-Pandas.

Frontend Developer (Current role): Developing and optimizing user interfaces using React.js.

Intern - AWS Jun 2023 - Aug 2023

Completed a 2-month internship at Amazon Web Services, gaining hands-on experience with various AWS services. Contributed to the development of a robust and user-friendly "Cloud File Management Web Application" leveraging the power of AWS.

Salesforce Developer Virtual Internship

[Link](#)

Completed a 2-month internship at Smart Bridge (Salesforce Partner), gaining hands-on experience with various Salesforce Platform services. And completed a project titled "A CRM Application to Manage the Services Offered by an Institution". It enables students to register easily and schedule consultations with experts.

PROJECTS

FileBox - Cloud Files managing using AWS services

[Link](#)

The "Cloud File Management Web Application using AWS" allows users to securely store, access, and manage their files in the cloud. Leveraging AWS, the app offers 30GB of free storage with the option to request more. Users can efficiently organize and manage their data until their storage limit is reached.

Quizwizz Connect-Mongo DB, Express Js, React Js, Bootstrap

[Link](#)

Using MERN Stack we developed a Revolutionized the quiz experience by modernizing traditional peer-to-peer methods, offering a fast, responsive, and seamless user interface. Implemented features encompassing quiz creation, joining quizzes, and displaying leaderboards. Incorporated diverse answer formats, from multiple-choice questions (MCQs) to long-form responses, to enrich user engagement and flexibility.

Quiet Time App-Java, Google APIs

[Link](#)

Developed an Android application that efficiently activates the Do Not Disturb mode (DND) on your phone according to predetermined schedules, visited locations (such as hospitals, colleges, and offices), or connected WiFi networks. This app ensures a peaceful environment and upholds social etiquette by minimizing disruptions for both the user and those around them in public settings.

EDUCATION

2021 - 2025 Bachelor's Degree at **SRM AP** (GPA: 9.12/10)
